Automobile Additional Services

Faded Black Trim Dye Restoration - (Contact Us)

Restores faded plastic and rubber trim that has turned grey from UV exposure
Uses a dye-infused formula that penetrates deep into the surface
Rejuvenates trim to appear darker, richer, and like-new
Provides wash and rain resistance for long-lasting results
Helps prevent future fading, cracking, and deterioration of trim
Decal / Vinyl Removal - (Contact Us)

Custom Vinyl Decal Application - (Contact Us)

Scratch Repair - (Contact Us)

Faded Black Trim Ceramic Restoration - (Contact Us)

Restores faded plastic and rubber trim that has turned grey from UV exposure
Uses a specialized ceramic coating formulated to absorb into the material
Rejuvenates trim to appear darker, richer, and like-new
Creates a protective layer offering the traditional benefits of ceramic coatings
Provides superior protection against UV rays and environmental elements
Helps prevent future fading, cracking, and deterioration of trim

Excessive Pet Hair Removal - (Contact Us)

Light pet hair removal included with all interior detailing packages
Designed for vehicles with excessive pet hair buildup beyond standard cleaning
Ensures thorough removal from carpets, seats, and upholstery
If not selected but required, additional charges may apply
Detailers will always consult and obtain customer approval before adding any charges
Assessment of excessive pet hair is determined at the discretion of our professional detailers based on interior condition

Headliner Restoration - \$100

Gentle surface vacuuming
Targeted stain and spot treatment
Low-moisture steam cleaning and extraction
Odor neutralization and sanitization
Fabric-safe drying process
Adhesive and material protection to prevent sagging

Basic Engine Bay Detail - \$50

High-quality foaming degreaser applied to break down oil, grease, and grime
Dwell time allowed for deep penetration and effective contaminant removal
High-pressure rinse to flush away buildup and residue
Safe cleaning method for rubber, plastic hoses, and sensitive components
Enhances both the appearance and reliability of the engine bay

Deep Engine Bay Detail - \$100

High-quality foaming degreaser applied to break down oil, grease, and grime
Dwell time allowed for deep penetration and effective contaminant removal
High-pressure rinse to flush away buildup and residue
Safe cleaning method for rubber, plastic hoses, and sensitive components
Restores a clean, polished, factory-like appearance
Application of durable, heat-resistant protective coating
Nourishes and protects plastic, rubber, and other engine bay materials
Provides long-lasting defense against cracking, fading, and drying
Helps prevent moisture buildup and corrosion on electrical components
Enhances both the appearance and reliability of the engine bay

Engine Component Polishing - (Contact Us)

Cleaning to remove dirt, grease, and grime from engine components
Surface preparation to ensure safe and effective polishing
Polishing of metal and plastic components to restore factory shine
Removal of minor surface imperfections and oxidation
Application of protective coating to maintain appearance and resist heat, dirt, and corrosion
Final inspection to ensure a clean, polished, and uniform engine bay finish

Exhaust Polishing = Custom/Contact Us

Cleaning to remove carbon buildup, dirt, and road debris

Metal polishing to restore shine and remove minor surface imperfections

Polishing improves appearance and helps prevent long-term corrosion and buildup

Undercarriage Restoration & Rust Prevention Treatment : \$100

Degreasing and cleaning to remove built-up dirt, oil, and road debris

Application of protective coating to help shield components from moisture and corrosion
rust prevention treatment, on metal components like the frame, suspension parts, brake lines, fuel
lines, and underbody panels

Headlight Restoration - \$120

Designed to improve visibility and enhance vehicle appearance by restoring cloudy, yellowed, or
oxidized lenses

Thorough cleaning of the headlight surface

Wet sanding to remove oxidation and surface damage

Polishing to restore clarity and shine

Application of UV-protective sealant to prevent future fading

Significantly improves nighttime visibility and provides a cleaner, more polished overall look

Odor Removal Treatment - \$150

Neutralizes and eliminates stubborn odors such as smoke, pet smells, mildew, food, and more
break down odor-causing molecules at the source

Advanced biochemical vapor dispersion process purifies and rejuvenates the entire cabin

Vapor releases a powerful oxidizing agent to penetrate all interior surfaces and the HVAC system

Targets and neutralizes odor-causing bacteria, mold, and organic contaminants at the molecular level

Eliminates odors completely rather than masking them

Leaves behind a crisp, refreshed atmosphere with a clean, renewed interior feel

Baby & Booster Seat Sanitization - \$50

- Vacuuming to remove crumbs, debris, and pet hair
- Spot treatment for stains and spills
- Steam cleaning or fabric-safe shampooing to sanitize and lift embedded dirt
- Wipe-down of plastic and hard surfaces
- Non-toxic, child-safe products used throughout the whole process

Wheels-Off Polishing (Full Wheel Inside & Out)

Basic Polish – \$450

- Single-step polish for a clean, refreshed shine on all wheel surfaces
- Wheels removed from vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- 6 Month Ceramic Protectant application

Deep Polish – \$600

- Multi-step polish to remove oxidation, restore depth, and enhance brilliance inside and out
- Wheels removed from vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- 6 Month Ceramic Protectant application

Show Finish – \$800

- Flawless, mirror-like finish with full multi-stage correction and protection
- Ideal for show cars and collectors
- Wheels removed from vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- 6 Month Ceramic Protectant application

Wheel Face Only Polishing (On-Vehicle)

Basic Polish – \$300

- Entry-level polish for a clean, bright look
- Wheels remain mounted on vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- Polishing of the front face only to restore deep gloss
- 6 Month Ceramic Protectant application

- Multi-step polish for a deeper, more reflective finish
- Wheels remain mounted on vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- Polishing of the front face only to restore deep gloss
- 6 Month Ceramic Protectant application

Show Finish – \$600

- Mirror-level shine and clarity for the wheel face with full polishing steps
- Wheels remain mounted on vehicle
- Inspection for surface damage, curb rash, oxidation, or corrosion
- Cosmetic repair of surface scuffs, scratches, and blemishes
- Deep cleaning to remove brake dust, road grime, and contaminants
- Polishing of the front face only to restore deep gloss
- 6 Month Ceramic Protectant application

✨ Upgrade Option:

Enhance and protect your investment by adding a 5-Year ceramic coating to the entire wheel and caliper for just \$50 per wheel when bundled with this service. This long-lasting coating helps repel brake dust, road grime, and oxidation for easier maintenance and extended shine.

Paint Enhancement Services

Accessory Ceramic Coatings

Truck Bed Cover Coating - \$200

Cleans and prepares the truck bed cover for coating
Applies durable ceramic coating for long-lasting protection
Protects against UV rays, dirt, and environmental contaminants
Enhances appearance with a deep, rich finish
Makes future cleaning easier and maintains long-term durability

Windshield Coating - \$150

Deep, spotless windshield cleaning and polishing before coating
Ceramic coating applied to repel water droplets for improved visibility in rain, snow, or fog
Enhances driving safety by reducing the need for constant wiper use
Provides a clearer view of the road, especially at high speeds
Protects windshield from scratches, dirt, and other contaminants
Makes future cleaning easier and maintains long-term clarity

Specialized Trim Coating - Custom/Contact Us

Protects and rejuvenates plastic and rubber trim
Absorbs into the material, restoring faded trim for a darker, richer appearance
Creates a protective layer with the benefits of a traditional ceramic coating
Provides superior protection against UV rays and environmental elements
Helps prevent future fading, cracking, or deterioration

Full Window Coating - \$300

Deep, spotless windshield & windows cleaning and polishing before coating
Ceramic coating applied to repel water droplets for improved visibility in rain, snow, or fog
Enhances driving safety by reducing the need for constant wiper use
Provides a clearer view of the road, especially at high speeds
Protects windshield from scratches, dirt, and other contaminants
Makes future cleaning easier and maintains long-term clarity

Wheel Face & Tire Coating - \$250

Provides years of protection from harsh chemicals, road grime, and brake dust
Keeps wheels easy to maintain and looking brand new
Simply rinse off for a spotless, protected finish

Wheels-Off Full Wheel & Caliper Coating = \$400

Provides years of protection from harsh chemicals, road grime, and brake dust
Keeps wheels easy to maintain and looking brand new
Simply rinse off for a spotless, protected finish

Suspension components coating - contact us

Restores a polished, well-maintained appearance
Protects metal and rubber parts from corrosion and environmental damage
Applies durable coating to help maintain long-term cleanliness and performance
Enhances both appearance and longevity of suspension components
2 Year Engine Bay Coating - \$400

Cleans and prepares the engine bay for coating
Provides long-lasting protection against dirt, grime, and contaminants
Helps prevent corrosion and protects sensitive components
Enhances the appearance of the engine bay with a clean, glossy finish
Maintains easier cleaning and long-term durability for up to two years
Thoroughly and safely cleans engine bay using high-quality foaming degreaser
Breaks down oil, grease, and grime for a deep, polished clean
Safe for rubber, plastic hoses, and sensitive components
High-pressure rinse removes all contaminants, restoring a refreshed appearance
Applies durable, heat-resistant protective coating to nourish and protect materials
Restores factory-like satin finish while preventing cracking, fading, and drying
Protective layer helps prevent moisture buildup and corrosion on electrical wires and connectors
Enhances both appearance and long-term reliability of the engine bay

Interior Ceramic Coating Services

2 Year Carpet & Fabric Coating - \$400

Ceramic coating formulated to protect carpet, fabric seats, and upholstery
Creates a hydrophobic barrier that repels spills, liquids, and stains
Prevents absorption of dirt, grime, and odors for long-term cleanliness
Makes interior maintenance effortless — simply blot and wipe away messes
Keeps fabric surfaces looking fresh, clean, and protected for over two years

2 Year Plastic & Vinyl Coating - \$350

Ceramic coating designed to protect and enhance all interior plastic and vinyl surfaces
Resists UV damage, fading, staining, and discoloration for over two years
Creates a hydrophobic, easy-to-clean surface that repels dust and grime
Restores depth and richness to faded trim while maintaining a natural factory finish
Provides long-lasting protection to keep your interior looking new and well-preserved

2 Year Full Leather Coating - \$350

Ceramic coating your leather makes protecting and cleaning your seats effortless
Resists stains, dirt, jean dye transfer, grease, chemicals, and UV rays for over two years
Extremely hydrophobic and easy to maintain — simply wipe with a towel to clean
Penetrates deep into the leather to replenish natural oils and restore softness
Leaves a fresh, matte finish that looks and feels like new

2 Year Full Interior Coating - \$1000

Complete ceramic protection for all interior surfaces — leather, plastic, vinyl, carpet, and fabric
Resists stains, spills, dirt, grease, and UV damage for over two years
Creates a durable, hydrophobic barrier that repels liquids and prevents discoloration
Restores and enhances natural finishes while preserving a clean, factory look
Penetrates and nourishes leather to maintain softness and flexibility
Protects plastic and vinyl surfaces from fading, cracking, and sun damage
Shields carpet and fabric from staining and odor absorption
Makes interior maintenance effortless — just wipe or blot to clean
Keeps your entire interior looking and feeling brand new for years
