## **Ceramic Coating Repair**

### **Ceramic Coating Scratch Repair - Contact Us**

**Ceramic Coating Rejuvenation & 6 Month Top-Coat Booster @ \$150**

**Ceramic Coating Rejuvenation & 2 Year Top-Coat Booster @ \$300**

Enhances and rejuvenates existing ceramic coatings for renewed performance and gloss

Specialized acidic wash (removes road grime, dirt, and mineral deposits)

Removal of contamination buildup that reduces hydrophobic properties and dulls shine

Restores coating slickness, clarity, and water-beading performance to like-new condition

Improved durability and protection against UV damage, water spots, and contaminants

Advanced Oleophobic properties (repels oils)

Antistatic protection reduces dust and dirt retention

Wheel and tire cleaning

Ceramic tire shine coating applied

Deep wheel well cleaning

Prewash removes dirt and road grime

Bug and tar removal

Iron removal (decontamination of iron particles)

Streak-free window cleaning

4 Layers of ceramic coating booster applied on all metal, chrome, paint, trim, wheels, seats, and bags
